Thakur College of Engineering and Technology

B.E Computer Engineering

Cumulative GPA: 9.39/10.0; 2023-2025 (Sem 1 - 5)

Relevant Coursework: Data Architecture, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Kandivali, Mumbai

Expected May 2027

WORK EXPERIENCE

LORD GANESHA IMPEX

Software Developer Intern

Mumbai, MH

February 2026 - Ongoing

- **Designed and implemented responsive front-end components** for the company's e-commerce platform using **Next.js, React, and Tailwind CSS**, improving cross-device usability and performance across mobile and desktop interfaces.
- **Built dynamic product category layouts and interactive UI animations using Framer Motion and modern React patterns**, enhancing user engagement and optimizing page rendering efficiency.

THE LONELY BAG Pvt Ltd

Frontend Web Developer Intern

Mumbai, MH

November 2025 - January 2026

- Building and enhancing responsive web pages using **Next.js** and **Tailwind CSS**, ensuring high-quality UI and smooth user experiences across all devices.
- Actively developing new features, fixing frontend issues, and improving overall **functionality and performance** of the company's website.

VIDYARTHI MITRA Org.

AI Developer Intern

Mumbai, MH

December 2025 - January 2026

- Built automated **data extraction and validation pipelines** using Python to process large, unstructured datasets with high accuracy and maintainability.
- Redesigned and enhanced a production website using the **MERN stack**, and applied **AI-based content processing** to transform regional-language information into structured, usable insights.

PROJECTS

NARAD - Ai Based Survey Data Collection System MoSPI (Govt. of India)

March 2026

- **Developed NARAD, an AI-powered survey data collection system for MoSPI (Govt. of India)** using **lightweight LLMs** to automate questionnaire interpretation and structured survey data capture.
- **Received ₹50,000 Government of India seed funding via Statathon** for building the prototype and demonstrating impact in large-scale national surveys.

SARTHI – Community-Powered Traffic & Civic Intelligence

September 2025

- Built a mobile & web platform combining community reports with AI verification for real-time civic issue tracking.
- Enhanced transparency and citizen-authority collaboration using live location mapping and crowd-sourced data.

SMART ACCIDENT DETECTION SYSTEM

August 2025

- Developed an AI-driven accident detection system using Raspberry Pi, FFmpeg, and Gemini API, frontend in NEXT Js for real-time CCTV analysis.
- Implemented a live dashboard displaying verified incidents with GPS mapping for faster emergency response.

ACTIVITIES

ROTARACT CLUB OF TCET. (5 student technical committee)

UI/UX & Full Stack Developer

Mumbai, MH

August 2025 – Sep 2025

- Redesigned the complete website interface with a modern, user-centered UI/UX approach, improving visual hierarchy, navigation clarity, and overall user engagement across all key user flows..

- Introduced a fully integrated Dark Mode with seamless theme switching, enhancing accessibility, reducing eye strain, and ensuring consistent design aesthetics across light and dark interfaces.

COMPUTER SOCIETY OF INDIA TCET

Mumbai, MH

Jr. Core - Webmaster

Jun 2024 – May 2025

- Designed the official CSI TCET website in React Js for 2024–25, enhancing the society's digital presence and accessibility.
- Led and managed a committee of 50+ members, coordinating technical and creative activities to ensure smooth execution of society events and initiatives.

TCET CAPTURE

Mumbai, MH

Creative Working Committee

May 2024 – May 2025

- Designed engaging and viral Instagram posts to promote TCAP club events and boost online visibility.
- Supported the college admission drive by creating high-reach Instagram reels that increased student engagement.
